

New Solar Glass now available from Toughglass

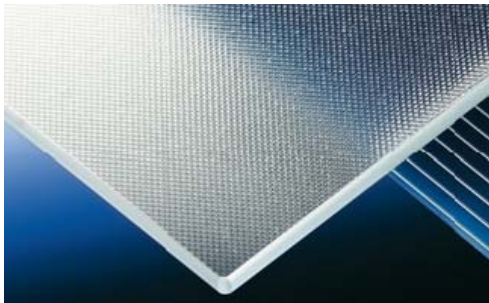

Toughglass are pleased to announce that we have recently secured a guaranteed supply of Optiwhite low Iron float glass and low Iron patterned rolled glass in both 3.2 and 4mm thickness. This glass is mainly used in the manufacture of both solar thermal and photovoltaic solar modules.

Optiwhite Low Iron Clear

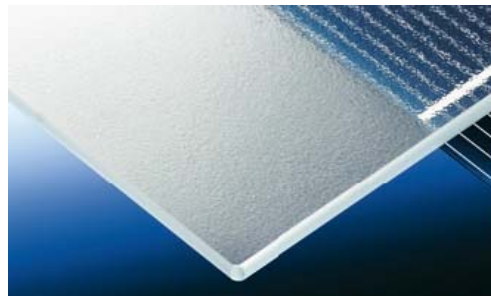

The brand name for the new rolled patterned glass is 'Sun Plus'. Currently, there are two types of pattern available:

SunPlus Solalite-Matt

SunPlus Matt-Matt
